

# Formal Arrangement of Theses

## JACKET:

*Jacket* is the first sheet, which is printed on the cover (only in the bound version of the thesis). Only dark colour covers must be used (e.g., black, blue, wine-coloured). The font color can be chosen gold, silver or another color, but sufficiently contrasting to the color of the background. The material of the cover is not determined. The binding of the cover must be hard and rigid, not spiral or wired. On the top of the *Jacket*, there is the author's name and the year of submission of the final thesis.

## TITLE PAGE:

*Title Page* is, in the bound version of thesis, the first inserted sheet after the cover (i.e., after *the jacket*). When you have your cover bound, you can choose to insert one more blank page before the *Title Page*. This sheet is not numbered.

## DECLARATION:

This sheet contains *Declaration* of the student that the thesis was composed solely by himself or herself and all sources that were used in the text are properly quoted and listed in the *Reference List*. This sheet is not numbered. In the bound version of the thesis, the text must be accompanied by the student's handwritten signature in the appropriate place.

**UNIVERSITY OF CREATIVE COMMUNICATION**

**Department.....**

# **BACHELOR'S THESIS**

**Title of the thesis**

**Year**

**First and last Name**

**UNIVERSITY OF CREATIVE COMMUNICATION**

**Department of .....**
